

Science Homework Menu

Choose one activity from each column to complete each week for homework. This means you will complete TWO activities. You will use this week's vocabulary words to complete the activities of your choice.

Column 1	Column 2
Draw, color, and label a picture to represent each word.	Create a comic strip about this week's objective using each vocabulary word. (Your objective for the week is posted on the board.)
Write a question for each word where the word will be the answer. Example: If the word is <u>insulator</u> : "What stops the flow of heat and electricity?" <u>An insulator</u>	Write each word using letters cut out of materials like magazines, newspapers, and food packaging. Include a picture cut out to represent the word.
Write a synonym (same) and an antonym (different) for each word.	Write a short story using each of the words. Use COMPLETE sentences and be creative! Must be at least 5 sentences.
Complete a simple crossword puzzle for your vocabulary words. All words should be used.	Make color flash cards for each word. The word should be on one side, with a definition or picture on the other.
